

Meetings to Discuss Reclamation Reporting under MAA with CVRWQCB on Salinity TMDL for Lower San Joaquin River

The Bureau of Reclamation announces the first four of six meetings to continue discussions on the calculations of salt loads and potential offsets under its Management Agency Agreement with the Central Valley Regional Water Quality Control Board. As part of its Draft Compliance Monitoring and Evaluation Plan, Reclamation proposed continuing stakeholder discussions over the calculation of salt loads and the identification of potential offsets, credits and trading of dilution flow capacity and salt load reductions.

The first four meetings are:
